Contents of Volume 16

Number 1

	1	Highlights
Viewpoints	3	Russian–American space miscommunication:a study in missed opportunities *J. Manber*
	7	Regulating commercial space:is the WTO the answer? *S. McGuire & A. Hansson*
	13	Space and security:a US policy quandary *S. Lambakis*
	19	A space strategy for Europe *B. de Montluc*
Papers	23	The historical dimension of space exploration:reflections and possibilities *R. D. Launius*
	39	Russia in space today —National paper of the Russian Federation *A. V. Yakovenko*
	45	European perspectives on trends in public sector Earth observation data policies *R. Harris & N. Olby*
	61	Evaluating NASA's role in risk communication processes surrounding space policy decisions *J.L. Arvai*
	71	Open for business:a new approach to commercialisation of the international space station *Master of Space Studies 1998–1999 (MSS4) Class*
Report	77	New technologies and data integration *R. Harris*
	79	Obituary
	81	Book reviews
	87	Publications
	89	Calendar

Number 2
Special Issue: Space Solar Power Policies

Guest Editor's Introduction	91	An overview of SSP policy issues *P. Glaser*
Viewpoints	93	Power from space: the policy challenge *M.I. Woodell*
	99	SPS — time for a pilot plant *P. Collins*

0265-9646/00/$ - see front matter

107 Are current and future space technologies favourable to SSPS projects?
M. Toussaint

Papers

111 Microwave policy issues for solar space power
J.M. Osepchuk

117 Safety issues in SPS wireless power transmission
R.M. Dickinson

123 International coordination of space solar power related activities
R.B. Erb, J. Grey & N. Kaya

129 The role of international organizations in SPS
D. Kassing

139 Current legal issues pertaining to space solar power systems
P.B. Larsen

145 Organizing and managing satellite solar power
K.E. Lusk-Brooke & G.H. Litwin

157 Publications

159 Calendar and Announcement

Number 3

161 Highlights

Viewpoints

163 Towards a new remote sensing order?
W. von Kries

167 An all-woman crew to Mars: a radical proposal
G.A. Landis

Papers

171 Tracing the evolutionary path for space technologies
P.L. Whitney

185 The challenges facing Galileo
V. Ashkenazi

189 A European view on UNISPACE III follow-up
K. Bergquist, M. Laffaiteur & K.-U. Schrogl

195 Alice in Licenseland: US satellite export controls since 1990
J. Johnson-Freese

205 The ethical dimensions of space settlement
M.J. Fogg

213 The mitigation, management, and survivability of asteroid/comet impact with Earth
V. Garshnek, D. Morrison & F.M. Burkle Jr.

Report

223 Archives for Earth observation data
R. Harris & N. Olby

229 Book reviews

233 Calendar

Number 4

235 Highlights

Papers

237 Back to the future: space power theory and A.T. Mahan
M.E.B. France

243 A new era? Military space policy enters the mainstream
A. McLean

249 Transitioning to a space & air force: moving beyond rhetoric?
J. Johnson-Freese

261 Avoiding collisions: the Spaceguard Foundation
J. Tate

267 Developing countries and remote sensing: how intergovernmental factors impede progress
H. George

275 Appropriation in outer space: the relationship between land ownership and sovereignty on the celestial bodies
V. Pop

Reports

283 Can power from space compete?
M. Macauley

287 Pricing policy and legal issues: 6th and 7th EOPOLE workshops
R. Harris & N. Olby

291 Book reviews

295 Documentation

299 Publications

301 Calendar
